Description:

About us

Our animal couriers are experienced animal handlers from an animal welfare background, and we prioritise the safety and comfort of animals placed in our care. We're committed to making travel as stress-free, seamless and comfortable for your animals as possible.

We can provide road travel from Spain to/from England and France, Airfreight between Spain / UK and UK / Spain and can coordinate your pet travel with your flight arrangements. We are able to offer an accompanied service where you can travel in comfort with your pets to most EU Destinations.

We are experienced with pet passports, can provide advice, assist with trouble shooting difficulties, and can provide solutions to some quite challenging situations.

We are now able to offer travel plans between Spain and other parts of the world. If it fits for us to provide the travel from Spain to the rest of the world, we will give you our best service.

We are good with elderly pets, pets that need medication at regular intervals and pets that have special needs.
