

POSH PETS SPAIN

Description:

Our small family company is now in its 6th year based in southern Spain. Working with animals most of our lives we have built up this unique little company that boasts a variety of services to mainly the ex-pat community here in Southern Spain.

We offer luxury pet transportation by land through Europe in correctly customised people carriers for pets, for those pets travelling to the UK that are awaiting the six month window we can offer a fostering service at our home.

We have a beautiful Boutique Dog Hotel where dogs have their own "Hansel & Gretel" style chalet with large exercising facilities in a secure orchard; we also have a small deluxe cattery away from the Dog Hotel where cats have their own large rooms complete with toys, scratch pads, music etc! All our clients are amazed at the size of the facilities for the pets but it ensures total contentment.

We have a pet grooming salon & an internationally recognised groomers training centre here with a boutique shop where you can purchase pet id tags & have them engraved onsite, pet treats, collars & leads, Posh Nosh Pet food, Pet Beds, clothing etc! Posh Pets Spain now also offers a Mobile British Vet Clinic here with exclusive rates for all pet owners that come to us, you do not need to be a client of ours to use the clinic, with savings of up to 75% on coastal vet prices this is not to be ignored. Look on our website for full details.
