

AudioMas

Description:

Naturally your hearing is normal; its always been like that, its just that others have started mumbling! It takes time, often years, before you realize that your hearing ability has declined. " nobody notices " especially you!

You nod " even though you did hear what was said!

You find others mumble!

You often ask others to repeat what they said!

You have turned up the tv/radio!

You have difficulty understanding on the phone!

Our ears are very sensitive and advanced mechanisms- indeed the The Hammer, Ambolt and Stirrup are the smallest bones in the body. A hearing loss often causes great stress " with fatigue and sleeping disturbances common, IT IS NECESSARY TO TAKE HEARING LOSS SERIOUSLY " AND DO SOMETHING ABOUT IT!

Old age hearing loss is very common, people sometimes tend to isolate themselves, they do not participate in group conversations easily, it becomes easier just to stay at home.

With a hearing aid you can get your hearing back- it only takes a little time to get used to, so if you want a free hearing test or have your hearing tested make that call - its FREE with Audio Mas!
